Exploring Color Space through Veil Painting

Morning course June 28-30

Dive into the healing, regenerative, breathing world of color. Discover how color arises out of the interaction of Light and Darkness. Experience the essential idea of color space, and how these relate to us as human beings, learn the basics of watercolor veil painting, building up a color atmosphere with successive washes of transparent watercolor, with form arising out of the world of color.

Developing Soul Capacities through Artistic Work

Weekend course July 1-2

Explore the themes of boundaries, color movement and color qualities—and how they relate directly to our soul experience and capacities. Develop your perception through becoming sensitive to color nuance and become more “color literate,” learning about the nature of color and the lawfulness behind it, while learning to see the world—and ourselves—in a whole new way!

Friday Evening talk June 30, 7pm
